

# New arrangements for quarantine hotels

## Hotels for medical observation

Designated Hotel

Optional Hotel

Special Medical Observation Hotel

### Macao residents and their accompanying relatives

Designated medical observation hotels are limited to Macao residents and their accompanying relatives. Those who qualify for certain conditions can apply for exemption.

### Those holding non-resident labor identification cards

can choose to stay in either “designated hotel” or “optional hotel”, both at their own cost.

### Non-residents and Macao residents

The optional medical observation hotels - Regency Art Hotel and Grand Coloane Resort - serve both non-residents and Macao residents. The price for the quarantine period will be determined by the hotel according to different room types, which includes breakfast, lunch and dinner, and general medical observation hotel arrangements. Please contact the hotel for special requests and services which are provided at additional cost. **Macao residents who choose to stay at “optional hotel” must settle at their own cost and cannot apply for exemption from the government.**

### Second-highest risk individuals

In accordance with the guidelines by the Health Bureau, “Special Medical Observation Hotel” only entertains second-highest risk individuals to minimise the risk of COVID-19 spreading in medical observation hotels. At present, arrivals flying in from Singapore and arrivals from Hong Kong are classified as second-highest risk individuals.

Please select the hotel that you have booked with “”
