

REQUIREMENTS TO FILL IN THE PRE-DEPARTURE FORM VIA THE MYSEJAHTERA APPLICATION FOR TRAVELLERS ENTERING MALAYSIA FROM ABROAD

1. The main process of screening travellers from abroad includes the process of **downloading and activating MySejahtera** application by Travellers **prior to departure**, followed by the QR code for the ‘Travellers from Abroad’ and completing the MySejahtera Pre-Departure Travel via the MySejahtera application at the country’s Point of Entry (POE).

2. Constant efforts were taken to ensure MySejahtera application is more user-friendly. It has a new useful feature to ease the screening process and facilitate the entry of travellers at the POE. A new ‘**Travellers’ icon** on the MySejahtera application’s homepage has been created where it provides links related to travellers **before** they pursue their journey to Malaysia.

3. **MySejahtera Traveller** provides:
 - 3.1. a link to **apply for a digital vaccination certificate** via the MySejahtera application for travellers who have been vaccinated abroad.
 - 3.2. a **pre-departure form** which requires details on personal information, health declaration, vaccination status, and quarantine information **before they depart to Malaysia**. This will facilitate their entrance process at POE. Therefore, travellers will no longer be required to scan the MySejahtera QR code and fill in this information in the MySejahtera app upon arrival at the POE. However, if they did not fill in the pre-departure form, their entrance process at POE will be longer and more tedious.
 - 3.3. a link directed to the Home Quarantine Application (HQA) portal (<https://hso.moh.gov.my/outbreak-portal-hqa/index>) is also available to facilitate travellers who are eligible to apply for home quarantine.

4. In conjunction with that, every traveller from abroad will be required to fulfil the following criteria **before they depart** to Malaysia: -
 - 4.1. Travellers who have received COVID-19 vaccination abroad will have to **apply for a digital vaccination certificate** in the MySejahtera application by using the link provided in MySejahtera 'Traveller' icon as early as **five (5) days before** departing to Malaysia.
 - 4.2. Travellers will be required to **fill in the pre-departure form** provided in MySejahtera Traveller icon. Information needed such as personal details, vaccinations, date of arrival, and place of quarantine are to be filled in accurately to ensure that further screening upon arrival runs smoothly. Appendix 1 can be referred for guidance to fill in the pre-departure form.
